linux**环境下**git**的使用**

• 生成秘钥命令:

```
ssh-keygen -t rsa -C "420741957@qq.com"
```

• 添加秘钥命令:

```
ssh-add ~/.ssh/id_rsa
```

- •
- •

Question:

```
user@user-virtual-machine:~/ming/My-code$ git push origin master Agent admitted failure to sign using the key.

Permission denied (publickey).

fatal: The remote end hung up unexpectedly
```

解决方法:这种问题需要添加ssh秘钥,使用添加秘钥命令(ssh-add ~/.ssh/id_rsa),添加秘钥。
